

Phillips

Feminism and Politics (Paperback)

Feminism challenges both the theory and practice of politics, opening up new ways of thinking about political change. In this latest volume in the Oxford Readings in Feminism series, Anne Phillips brings together twenty outstanding articles dealing with various aspects of feminism and politics, covering political studies, political theory, interests and representation, identities and coalitions, equality and anti-discrimination, and citizenship. This collection will be essential reading for any feminist who has doubted the important of political studies, and any student of politics who has doubted the relevance of feminism.
