

MCQs for First Frcr

MCQs for First FRCR offers the most comprehensive coverage of the topics covered in the new First Fellowship of Royal College of Radiology (FRCR) examination, which includes newly-added topics such as ultrasound and magnetic resonance. Led by specialist trainees with recent exam experience and contributions from experienced senior consultants and examiners, this book offers not only relevant content and valuable insights, but also visually enhanced answer sections (including diagrams and tables) that aim to improve and enhance understanding of key concepts in medical physics and radiation protection. Each chapter includes up to forty multiple choice questions covering each area of the exam. Each question and answer includes explanations and further reading.
