## Advances in Family Practice Nursing, 2021

Volume 3-1

Advances in Family Practice Nursing reviews the year's most important findings and updates for the family practice nurse practitioner. A distinguished editorial board identifies key areas of timely clinical advances and invites preeminent specialists to contribute original articles devoted to these topics. These insightful overviews in family practice nursing inform and enhance clinical practice by bringing concepts to a clinical level and exploring their everyday impact on patient care. - Contains 17 articles on such topics as the surprising effects of social isolation and loneliness on physical health for older adults; culturally informed mental health care of marginalized older adults; social media and bullying; Zoom fatigue in children; and grief in children. - Includes articles in the areas of adult health/gerontology, women's health, pediatrics, and primary care in general. Numerous articles in this edition cover topics in mental health, as health care professionals have increasingly been called upon to help patients manage mental wellness during the pandemic. - Provides in-depth, clinical reviews in family practice nursing, providing actionable insights for clinical practice. - Presents the latest information in the field under the leadership of an experienced editorial team. Authors synthesize and distill the latest research and practice guidelines to create these timely, topic-based reviews.
