

Dean

Sports Cardiology, an Issue of Clinics in Sports Medicine

Volume 41-3

In this issue of Clinics in Sports Medicine, guest editor Dr. Peter Dean brings his considerable expertise to the topic of Sports Cardiology. Top experts in the field cover key topics such as the importance of surrounding the athlete with a "team;" pre-participation evaluation of the athlete; risk and causes of sudden death in athletes; non-cardiac diseases that mimic cardiac symptoms in young athletes; incorporating new heart rate monitors, wearables, and watches into sports cardiology practice; and more. - Contains 12 relevant, practice-oriented topics including differentiating between pathologic heart disease and an "athletic heart;" exercise stress testing in the athlete; myocarditis/COVID-19 and the athlete; sports participation and physical activity in patients with hypertrophic cardiomyopathy; sports participation and physical activity in patients with inherited arrhythmias and atrial fibrillation; and more. - Provides in-depth clinical reviews on sports cardiology, offering actionable insights for clinical practice. - Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews.
