

Tritton on Intellectual Property in Europe

Offers unrivalled cross-jurisdictional coverage of intellectual property law and rights protection across Europe. It comprehensively and methodically analyses the law and legislation governing patents, trade marks, copyright, designs and plant varieties to explain exactly how your rights are protected and which remedies are available in the event of infringement. Written by an expert in the field, this is your guide for clarifying the key aspects of international and EU law as it is applied in Europe.
