

Critical Theorists and International Relations

A wide range of critical theorists is used in the study of international politics, and until now there has been no text that gives concise and accessible introductions to these figures. *Critical Theorists and International Relations* provides a wide-ranging introduction to thirty-two important theorists whose work has been influential in thinking about global politics. Each chapter is written by an expert with a detailed knowledge of the theorist concerned, representing a range of approaches under the rubric 'critical', including Marxism and post-Marxism, the Frankfurt School, hermeneutics, phenomenology, postcolonialism, feminism, queer theory, poststructuralism, pragmatism, scientific realism, deconstruction and psychoanalysis. Key features of each chapter include: - a clear and concise biography of the relevant thinker - an introduction to their key writings and ideas - a summary of the ways in which these ideas have influenced and are being used in international relations scholarship - a list of suggestions for further reading Written in engaging and accessible prose, *Critical Theorists and International Relations* is a unique and invaluable resource for undergraduates, postgraduates and scholars of international relations.
