From Garden Cities to New Towns

Campaigning for Town and Country Planning 1899-1946

Please note that the 2011 paperback is an exact reprint of the original hardback which was released in 1991 This book offers a detailed record of one of the world's oldest environmental pressure groups. It raises questions about the capacity of pressure groups to influence policy; and finally it assesses the campaigning as a major factor in the emergence of modern town and planning, and as a backdrop against which to examine current issues.
