## Implementing Energy Efficiency in Industries

---

This book focusses on designing, implementing, and verifying performance of energy efficiency and conservation (EE&C) projects in relevant industries from a practitioner's perspective. Various techniques and approaches are presented using case studies collated from the author's notes from about four decades of working in process industries and two decades as international sustainable energy consultant. Features: - Provides a broad overview of the main issues in implementing energy efficiency in industries. - Focusses on implementation issues-technical, financial and employee engagement. - Includes comparative evaluation of ESCO performance contract implementation. - Charts out energy efficiency journey, developing long-term goals and short-term activities. - Includes case studies related to energy efficiency in energy intensive large industries. This book is aimed at professionals in energy engineering, industry, efficiency, and policy.
