## Child and Adolescent Development in Context - International Student Edition

Like children themselves, development is dynamic. In the chronologically organized *Child and Adolescent Development: Lives in Context*, award-winning author Tara L. Kuther frames development research in real-life contexts, including gender, race and ethnicity, socioeconomic status, and more. Kuther presents highly relatable examples, vivid cross-cultural stories, and *Lives in Context* video case studies of real individuals, consistently prompting students to reflect on chapter content with *What do you think?* questions. The book emphasizes three core themes: the centrality of context, the importance of research, and the applied value of developmental science; students will come away with an understanding of these themes that they will immediately be able to apply to their own lives and future careers. **INSTRUCTORS:** *Child and Adolescent Development* is accompanied by a complete teaching and learning package! - SAGE coursepacks makes it easy to import our quality instructor and student resource content into your school's learning management system (LMS).
