Advances in Energy Science and Equipment Engineering II Volume 1

Proceedings of the 2nd International Conference on Energy Equipment Science and Engineering (ICEESE 2016), November 12-14, 2016, Guangzhou, China

The 2016 2nd International Conference on Energy Equipment Science and Engineering (ICEESE 2016) was held on November 12-14, 2016 in Guangzhou, China. ICEESE 2016 and brought together innovative academics and industrial experts in the field of energy equipment science and engineering to a common forum. The primary goal of the conference is to promote research and developmental activities in energy equipment science and engineering and another goal is to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working all around the world. The conference will be held every year to make it an ideal platform for people to share views and experiences in energy equipment science and engineering and related areas. Volume one of the two-volume set of proceedings covers Energy and Environmental Engineering topics and Mechanical Engineering contributions.
