## Globalization and Development Volume II

Country experiences

---

Globalization and Development is a "cross-national study" on the "interstate dispersion" of the impacts (on growth, inequality and poverty) that international economic integration provides to the economies of the developing countries. In order to present the "Leading Issues in Development with Globalization" in a balanced manner, to identify differences and commonalities among "Country Experiences" in development with globalization, and to introduce diversified development paradigms with forward-looking discussions "In Search of a New Development Paradigm" for the post-MDGs era, this publication consists of three volumes and four main parts. Volume II (Part III) presents the country case studies of Bhutan, China, Indonesia, Japan, Thailand, Vietnam, and Ghana, with their respective experiences of development under globalization. An additional chapter that describes the overall African experience under globalization is included, reflecting the recent emergence of Africa as the global target of investment. This book intends to serve as a unique and comprehensive guide for those in the international development community on the subjects of diversified development paradigms/paths under globalization and other challenges in the post-MDGs era.
