## Developing and Designing Materials for English Language Teaching and Learning

---

One of the tools that English language teachers use to effectively carry out English language teaching and learning is materials. In this context, English language teachers and English language teacher candidates must have the necessary knowledge and skills regarding creating and designing English language teaching and learning materials. For this reason, in many universities around the world, courses related to material design and development are taught in departments that train English language teachers. Following current developments in foreign language materials' design and development is a priority for publishing houses, especially those that design textbooks in the light of current approaches. Thus, this book provides textbook publishers and English language teacher trainees, teachers, academicians and practitioners with the current theoretical and practical directions in developing, designing, and implementing materials to enhance foreign language learning and use.
