

Magill / Benedict

Strands of Sustainability

This volume highlights emerging concerns and pivotal problems about our planet's environment and ecology. The contributions gathered here highlight the importance of integrating expertise to foster strands of sustainability regarding artificial intelligence, education, health, biomedical engineering, and generational challenges. The book concludes with an ethical analysis of the multiple and over-lapping challenges that require urgent attention and long-term resolution. It will appeal to scholars and students in a variety of disciplines and fields that deal with sustainability.
