Labor Law Landscape

2022 Edition

Labor Law Landscape is a practical resource for practitioners involved in navigating the day-to-day realities of the labor relations process. Developed by Rafael Gely and a contributing author team of six labor law attorneys, this new work recognizes and addresses the increased complexities that labor relations specialists face, and provides a course through this maze to put today's labor relations rules in sharp focus. It meets the need for a clearly written practical explanation and summary of the principles of labor relations law and the important rules developed under the statutes and decisions.
