Hasegawa

System Theory of Continuous Time Finite Dimensional Dynamical Systems

The Memories of Tsuyoshi Matsuo and R. E. Kalman

This book discusses the realization and control problems of finite-dimensional dynamical systems which contain linear and nonlinear systems. The author focuses on algebraic methods for the discussion of control problems of linear and non-linear dynamical systems. The book contains detailed examples to showcase the effectiveness of the presented method. The target audience comprises primarily research experts in the field of control theory, but the book may also be beneficial for graduate students alike.
