

Providing HIV Care: Lessons from the Field for Nurses and Healthcare Practitioners

This very first book helps nurses and healthcare practitioners working in the field of HIV care across European to have practical examples of how they could improve/ adapt their services to improve outcomes for people living with HIV. It provides the reader with both knowledge on a variety of different HIV related topic areas and also helps them to translate this learning into a clinical setting. The main focus of the book is to share best practice in HIV nursing, with the aim of providing a practical guide from multiple countries to improve outcomes for people living with HIV. The book also acts as a resource to healthcare practitioners who are interested in working in many places in the world or carrying out research in HIV care.
