

## Turkey's Challenges and Transformation

Politics and Society on the Centennial of the Republic

This book analyzes the transformation of Turkey's international and domestic politics in the past two decades through a comprehensive domestic- international nexus. It examines the domestic system and the main historical challenges without neglecting their international drivers and looks into main foreign policy areas and issues by accounting for the domestic developments that affected them. Looking inside Turkey's transformation on the basis of an interplay of external and internal factors, through the prism of critical scholars who all agree on the interdependency of national and international politics, it is designed to provide a thoughtful look into the future of Turkey through themes and regions.
