

Naturalists, Explorers and Field Scientists in South-East Asia and Australasia

"Alfred Russel Wallace- His Predecessors and Successors. Naturalists, Explorers and Field Scientists in South-east Asia and Australasia. An International Conference" will be the premier forum for the presentation of new advances and research results in the fields of studies on Alfred Russel Wallace and other natural historians, past and present, as well as contemporary research on South-east Asian and Australasian biological diversity. The conference will bring together leading researchers including biologists, ecologists, zoologists, botanists, geologists, anthropologists, social scientists and others from around the world. Topics of interest include, but are not limited to: history of biology, biodiversity, anthropology, geology, conservation, ecosystem management, environmental impact assessments, environmental law, environmental policies, landscape management and habitat restoration and management.
