Dialogue Analysis VII: Working with Dialogue

Selected Papers from the 7th IADA Conference, Birmingham 1999

This volume brings together contributors from 30 universities in 22 countries. It includes both theoretical papers which present new methods of analysis and practical studies of dialogue, much of which was recorded in work settings - a binary focus encapsulated in the title, 'Working with Dialogue'. The settings from which the data was collected are diverse: the media, the courtroom, the classroom, the home and the clinic, as well as from literary texts. The book is ordered in such a way that each paper links theoretically, methodologically and/or topically with those on either side of it.
