

Catheter Ablation of Cardiac Arrhythmias

A Practical Approach

Catheter ablation of cardiac arrhythmias is an important field of interventional cardiology. This comprehensive overview is a practical guide for - exact diagnosis of cardiac arrhythmias - mapping of cardiac arrhythmias with newest 3D technology - catheter ablation of various arrhythmias from WPW syndrome to atrial fibrillation. Colored intracardiac tracings as well as fluoroscopic and 3D mapping images reflect the situation in the EP lab and lead you step by step to the right diagnosis and successful ablation.
