

## Private and Civil Law in the Russian Federation

---

The chapters in this volume are from two Leiden conferences. There, distinguished scholars and practitioners from Russia and the Far Abroad measured the winds of change in the field of private law in post-Soviet Russia: enormous differences from the Soviet period, crucial in supporting post-Soviet changes toward freedom of choice in the marketplaces of goods, services, ideas and political institutions. This volume will enable the reader to further chart the progress made in Russia (and the region) in the revitalization of private and civil law—and its impact upon practice and comparative legal studies—and to appreciate the role which the distinction between the public and private sectors is seen as playing in the process.
