Aviation Law and Policy in Asia

Smart Regulation in Liberalized Markets

Aviation Law and Policy in Asia: Smart Regulation in Liberalised Markets examines the evolution of aviation law and policy in selected Asian jurisdictions and analyses the dynamic regulatory challenges that each jurisdiction faces. Prominent aviation law and policy experts in Asia analyse topics such as air transport liberalisation, the regulation of air operator certificates, legal issues about pilot strikes, traffic rights allocation, legal challenges arising from new types of aircraft, ticket pricing regulation, air services agreements, airport competitiveness and aircraft financing. The case studies and recommendations presented in this book both enrich theoretical debates and serve as a roadmap for understanding aviation law and policy in Asia.
