

The Personal Is Political

Body Politics in a Trump World

In the wake of Donald J. Trump's unprecedented victory and his administration's multi-pronged attacks on an array of vulnerable populations, a diverse collection of scholars was asked to document the ways in which marginalized peoples have experienced the first years of Trump mayhem. The essays in this volume ask us to think through tough narratives of exclusion, exile, and pain. The challenge in this book is to represent the unrepresentable, to document in chilling detail how Trump, his allies in government, and his unshakeable base have weaponized the culture war and threatened the ideals of the Republic. This book invites us to experience the scarifying perspective of the marginalized Other, to remember to honor all our most human stories that, woven together, make up the collective 'us'; the collective 'U.S.' The editors also hope this collection suggests a way forward, a way to defeat American nativism and a way to end the war on those of us who are, on this sad day, our nation's public enemies.
