ABHB Annual Bibliography of the History of the Printed Book and Libraries

Volume 1: Publications of 1970

The history of printing, books, and libraries, is confined only to a limited extent within the boundaries of individual countries. There are, indeed, few historical developments which have played a more universal role, in reaction against all kinds of particularism, than type design, printing, book production, publishing, illustration, binding, librarianship, journalism, and related subjects. Their history should be assessed and studied primarily in an international, not in a local, context. The bibliographical resources, however, which the historian of these subjects has at his disposal correspond hardly at all to the essentially international character of the object of his studies. Since the appearance of the retrospective bibliography of BIG MORE and WYMAN, covering the subject comprehensively up to 1880, the only current bibliography has been the Internationale Bibliographie des Buch- und Bibliothekswesens. Covering a representative part of newly published literature, it appeared from 1928, but did not survive the Second World War. More recently, several useful, but limited, bibliographies have appeared.
