

## An Interdisciplinary Bibliography on Language, Gender and Sexuality (2000–2011)

This comprehensive, state-of-the-art bibliography documents the most recent research activity in the vibrant field of language, gender and sexuality. It provides experts in the field and students in tertiary education with access to language-centred resources on gender and sexuality and is, therefore, an ideal research companion. The main part of the bibliography lists 3,454 relevant publications (monographs, edited volumes, journal articles and contributions to edited volumes) that have been published within the period from 2000 to 2011. It unites work done in linguistics with that of neighbouring disciplines, covering studies dealing with a broad range of languages and cultures around the globe. Alphabetical listing and a keyword index facilitate finding relevant work by author and subject matter. The e-book version additionally enables users to search the entire document for specific terms. Sections on earlier bibliographies and general reference works on language, gender and sexuality complete the compilation.
