

Text and Discourse Connectedness

Proceedings of the Conference on Connexity and Coherence, Urbino, July 16–21, 1984

The 35 papers in this volume provide a comprehensive picture of crucial aspects of connectedness. The papers are divided into three main groups: the papers in the first group deal with particular questions of the text-constituting role of anaphora, deixis, coreference, modality, conjunctions and particles, theme, topic, ellipsis, etc., the second group of papers discusses the connectedness in texts/discourses of different types (narrative texts, stories, horoscopes, anecdotes, poems, comics, etc.), and, finally, the papers in the third group discuss general theoretical/methodological questions concerning connectedness.
