Eco-socialism as Politics

Rebuilding the Basis of Our Modern Civilisation

This volume consists of analyses by experts from both the West and the East on the up-to-date development of Eco-socialism as a red-green politics within the context of capitalist globalisation. It investigates whether and/or in what sense Eco-socialism can offer a better explanation to the causes of ecological problems than the other Green discourses - such as deep ecology and ecological modernisation theory, and thus has more contributions to make in dealing with the deteriorating ecological crisis throughout the world.
