Crystallography Reports

Crystallography Reports (Kristallografiya), founded in 1956, publishes original papers, short communications, and reviews on different aspects of crystallography: diffraction and scattering of X-rays, electrons, and neutrons; X-ray, electron, and neutron diffraction determination of crystal structure of inorganic and organic materials, including proteins and other biological objects; optical and radiowave spectroscopy; growth, real structure and physical properties of crystals; thin films and partly disordered systems, and the methods used in these studies.
