

Sicherheitsunterweisung Elektrotechnik 2022 - englisch- und deutschsprachig

Prüfung von ortsveränderlichen elektrischen Geräten

Das Thema der "Sicherheitsunterweisung Elektrotechnik 2022" lautet – Prüfung von ortsveränderlichen elektrischen Geräten. Get up-to-date, professional training! With this e-learning course, you as an employer can fulfil your annual training obligation under Regulation 1 of the DGUV and the German Occupational Safety Act - simply, professionally, and without major organisational effort, costs or time. The advantages are clear: – You benefit from ready-to-use training material, thereby reducing time-consuming planning and organisation. – You save the costs of copying masses of training documents and non-productive time, making you and your employees completely independent of fixed deadlines. – You provide professional training with the latest teaching and actively involve your audience using integrated knowledge tests. Simply pass on the "Electrical Safety Training Course 2022" to your colleagues - and everyone can do their training themselves, whenever it best fits into their working day! All you have to do is carry out a company-specific feedback discussion. This self-led training teaches important content and tests knowledge in numerous exercises as well as in a knowledge review. This year's safety training is about Testing of Mobile Electrical Equipment.
